TB CCTV

November 4, 2013

Dear Brothers and Sisters:

Members have raised concerns to the Union regarding the employer's use of live CCTV at TB.

I have discussed the issue with the employer and have the following written commitment.

" The review of real time images on the monitor at Tb drawn from the CCTV cameras for any purpose other than in support of operational decision making is expressly forbidden"

Any discipline issued has been removed.

In Solidarity

Chris Thompson

Chief Shop Steward
